PROFESSIONAL SUMMARY

Performance AdTech Analyst and Program Manager with 5+ years of experience growing advertising revenue for food delivery platforms in the UAE and India. Currently own a **AED 400M+** ad revenue P&L at Talabat, covering budget planning, target setting, discount management and revenue forecasting for the UAE market. Selected as an **AI Champion**, one of 40 people chosen across 7 countries for advanced AI training, and regularly uses AI tools to build automation that removes hours of manual reporting work for the sales team.

WORK EXPERIENCE

Performance Adtech Analyst

Talabat (UAE), October 2024 - Present

- Selected as an **AI Champion**, one of **40 people** chosen across **7 countries** for an advanced AI training program to help drive automation and revenue growth for the business.
- Awarded **Star Performer** for meeting **100% of annual budget targets** and cutting manual discounts by **12% month over month**.
- Own the end to end commercial operating cycle for the **AED 400M+** UAE ad P&L, including budget planning, target setting, best estimate forecasting and discount governance.
- Work closely with Finance, Legal, Sales, Regional and Product teams, and manage a network of **80+ Account Managers, 30 Team Leads and 5 City Heads**.
- Launched Food Stories Video Ads and a new pricing framework that brought in **100+ major brand** adoptions and a **5% month over month** revenue uplift.
- Reduced vendor churn and recovered **AED 800K** in additional monthly revenue by fixing VAT calculations and introducing guaranteed ROI packages for underperforming vendors.
- Built automated reporting pipelines using AI assisted tools, connecting BigQuery to scheduled workflows and cutting **3+ hours** of manual reporting work per day.
- Connected BigQuery and Google Sheets into daily workflows with AI data connectors, turning unstructured text logs into clean, usable data for field teams.
- Set up automated email and Slack alerts for revenue issues, so the team is notified automatically without checking dashboards manually.

Program Manager, Adtech

Zomato (India), July 2021 - October 2024

- Scaled Zomato Bharat's ad revenue engine to a **\$15M monthly portfolio** by monetizing video ads, visit packs, AI generated video creatives and brand tiles.
- Grew Average Revenue Per Order to **9.1** and cut client churn from **17% to 10%**, protecting **\$1.4M** in recurring monthly ad revenue.
- Led growth operations across **695 cities** and launched Zomato Gold in North India, growing subscription adoption and city level profitability.
- Led a full commission structure overhaul for the North region, from market analysis to stakeholder alignment to rollout, driving a **2.46% commission uplift**.

PROJECTS

- **AE Retention Budget Dashboard:** a live tool that tracks CPC and Keywords retention budgets by City Head, Team Lead and Account Manager, replacing manual spreadsheet tracking and refreshing the data every hour.
- **Talabat Dashboard Hub:** a self serve platform that lets any team publish and share a dashboard instantly, cutting down on ad hoc reporting requests from the sales team.
- **Personal Work Tracker:** an automated tracker that logs tasks, wins and contributions throughout the year and generates a ready to use year end review summary.
