PROFESSIONAL SUMMARY

Performance-driven Adtech Analyst and Program Manager with 4+ years of experience scaling advertising revenue across high-growth food-delivery platforms in the UAE and India. Proven expertise in P&L ownership of AED 400M+ ad budgets, AI-powered automation engineering, and cross-functional team leadership spanning 115+ direct and indirect reports. Combines deep analytical fluency in SQL, Python, and Tableau with emerging capabilities in GenAI orchestration, automated ETL pipelines, and autonomous agent workflows to deliver measurable top-line revenue growth.

WORK EXPERIENCE

Performance Adtech Analyst | Talabat (UAE)

October 2024 - Present

- Directed full P&L ownership of an AED 400M+ annual ad revenue budget, as measured by consistent MoM target attainment across the UAE market, by overseeing 80+ Account Managers, 30 Team Leads, and 5 City Heads on unified performance KPIs.
- Launched Food Stories Video Ads and a product-level dynamic pricing framework, as measured by 100+ major brand adoptions and a 5% MoM incremental revenue uplift, by optimizing ad placement strategies and restructuring bidding models across ad package tiers.
- Optimized VAT calculations and reduced vendor churn through wallet share interventions, as measured by AED 800K in additional MoM revenue and AED 5M+ GMV generated monthly, by re-engineering pricing structures and guaranteeing assured ROI for underperforming vendors.
- Automated daily ads revenue reporting using Python scripts, as measured by elimination of 3+ hours of manual work per day, by building pipelines that compute MTD vs. LMTD vs. L2MTD variance metrics and feed live dashboards in Tableau and Looker.
- Configured AI data-connectors to link BigQuery and Google Sheets with operational workflows, as measured by real-time data access for team leads and city heads, by setting up secure cloud integrations and using targeted prompt logic to clean messy text logs into structured analytical rows.
- Set up background automated email and Slack status alerts for critical revenue deviations, as measured by 100% autonomous alert coverage with zero manual monitoring, by scheduling recurring jobs via CLI tools with conditional trigger logic.

Program Manager - Adtech | Zomato (India)

July 2021 - October 2024

- Scaled Zomato-Bharat's ad revenue engine, as measured by growing the monthly portfolio to 125 crores, by monetizing a diversified suite of ad products including video ads, visit packs, AI-generated videos, and brand tiles.
- Accelerated Average Revenue Per Order (ARPO) to 9.1 and slashed client churn from 17% to 10%, as measured by safeguarding 12 crores in recurring ad revenue, by redesigning retention workflows and implementing data-driven pricing strategies across the restaurant base.
- Led the growth team across 695 cities and launched Zomato Gold in North India, as measured by accelerated subscription adoption and city-level profitability gains, by steering end-to-end go-to-market execution and aligning regional growth playbooks.
- Orchestrated a commission structure overhaul for the North region restaurant base, as measured by a 2.46% commission uptick and company-wide recognition, by conducting market analysis, building stakeholder consensus, and executing a phased rollout strategy.

AWARDS AND RECOGNITION

- Ads Champion, Zomato, 2023
- Commission Ace Champion, Zomato, 2023
- Ace Super Star Award, Zomato, 2022
- Ace Super Star Award, Zomato, 2021
- 100% Scholarship in 12th Grade, DPS

EDUCATION

B. Tech in Electronics and Communication Engineering

SKILLS

Core Analytics and Systems: SQL, Python (Pandas, DataFrames), Tableau, Looker, Google Workspace, BigQuery, Data Analysis, Revenue Forecasting, Dashboard Development

AI Automation and Orchestration: Prompt Engineering, JSON Schema Validation, Automated ETL Pipelines, Command Line Interfaces (CLI), Cloud Data Connectors, Automated Alerting Systems

Strategic Leadership: P&L Management (AED 400M+), Adtech Product Optimization, Revenue Forecasting, Change Management, Cross-Functional Team Leadership, Churn Reduction, Wallet Share Optimization, Stakeholder Management, Program Management Operations
