PROFESSIONAL SUMMARY

Performance-driven Adtech Analyst and Program Manager with 5+ years of experience scaling advertising revenue across high-growth food-delivery platforms in the UAE and India. Proven expertise in P&L ownership of AED 400M+ ad budgets, AI-powered automation engineering, and cross-functional team leadership. Combines deep analytical fluency in SQL, Python, and Tableau with emerging capabilities in GenAI orchestration, automated ETL pipelines, and autonomous agent workflows to deliver measurable top-line revenue growth.

WORK EXPERIENCE

Performance Adtech Analyst | Talabat (UAE)

October 2024 - Present

- Owned AED 400M+ annual ad revenue P&L, driving consistent MoM target attainment across the UAE by aligning 80+ Account Managers, 30 Team Leads, and 5 City Heads on unified KPIs.
- Launched Food Stories Video Ads and a dynamic pricing framework that drove 100+ major brand adoptions and a 5% MoM incremental revenue uplift through optimized ad placements and restructured bidding models.
- Reduced vendor churn and recovered AED 800K in additional MoM revenue (AED 5M+ monthly GMV) by re-engineering VAT calculations, pricing structures, and guaranteed-ROI packages for underperforming vendors.
- Built Python-based ETL pipelines that automated daily revenue reporting, eliminating 3+ hours of manual work per day and feeding live month-to-date variance dashboards in Tableau and Looker.
- Integrated BigQuery and Google Sheets into operational workflows via AI data-connectors, enabling real-time data access for field leadership and converting unstructured text logs into clean analytical datasets.
- Deployed automated email and Slack alerts for critical revenue deviations using scheduled CLI jobs with conditional triggers, achieving fully autonomous monitoring with zero manual oversight.

Program Manager - Adtech | Zomato (India)

July 2021 - October 2024

- Scaled Zomato-Bharat's ad revenue engine to a \$15M monthly portfolio by monetizing video ads, visit packs, AI-generated videos, and brand tiles across the platform.
- Grew Average Revenue Per Order to 9.1 and cut client churn from 17% to 10%, protecting \$1.4M in recurring monthly ad revenue through redesigned retention workflows and data-driven pricing strategies.
- Led growth operations across 695 cities and launched Zomato Gold in North India, accelerating subscription adoption and city-level profitability through end-to-end go-to-market execution.
- Drove a 2.46% commission uplift across the North region restaurant base by leading a full commission structure overhaul — from market analysis through stakeholder alignment to phased rollout.
